

# Modern Portfolio Starter — Premium React + Tailwind CSS Template

**Looking for a sleek, modern, and fully responsive portfolio website to showcase your professional brand?**

This ready-to-use React + Tailwind CSS portfolio starter is crafted for creatives, freelancers, and professionals who want a stunning online presence — fast!

---

## Why Choose This Template?

- **Modern Design:** Clean, vibrant blue aesthetic with smooth animations that captivate visitors.
  - **Multi-Page Setup:** Easily showcase your Home, Projects, Services, and Contact pages.
  - **Dark Mode Support:** Built-in toggle switch for light/dark themes to impress visitors day or night.
  - **Mobile Responsive:** Looks flawless on phones, tablets, and desktops without extra effort.
  - **Fast & SEO-Friendly:** Optimized for speed and search engines so you get discovered easier.
  - **Easy Customization:** Tailwind CSS makes styling a breeze, and React Router keeps navigation smooth.
  - **Animations Included:** Subtle fade, zoom, and hover animations powered by AOS for polished UX.
  - **Contact Form Ready:** Integrated with Formspree for quick setup of your inquiries form.
  - **Developer Friendly:** Comes with Vite for fast development and build tooling.
-

## What You Get

- Complete React source code with clear component structure
  - Tailwind CSS configured with PostCSS and Vite for hassle-free builds
  - Dark mode toggle switch on every page for modern UI control
  - Animated cards and image hover effects that engage users
  - Fully responsive layout designed to adapt to any screen size
  - Easy-to-follow README to get started fast
  - Perfect foundation to add your own branding and content
- 

## How to Use

1. **Download** the template files.
  2. **Install** dependencies with `npm install`.
  3. **Run** locally with `npm run dev` and start customizing.
  4. **Replace** placeholder text, images, and links with your personal info.
  5. **Deploy** your portfolio on any static hosting platform (Netlify, Vercel, GitHub Pages).
- 

## Who Is This For?

- Freelancers wanting a professional portfolio to attract clients
